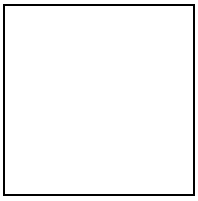
WOODLAND BABY QUILT

Leaf templates & placement

US Letter | Print at 100% / Actual Size



1-INCH TEST SQUARE — Print at 100% or Actual Size. Do not select Fit, Shrink, or Scale to Page. Measure this square before cutting.

Assembled motif: 3 x 1.5 in. All cutting shapes are full size. No turned-edge allowance. Newly constructed Option A specification; not dimensions recovered from the old PDFs.

PRINTING
1. Download and open the PDF in a PDF reader.
2. Choose US Letter paper.
3. Select Actual Size or 100%.
4. Turn OFF Fit to Page, Shrink Oversized Pages, and custom scaling.
5. Print the page containing the test square first.
6. Measure the square with a ruler. It must measure exactly 1 inch.
7. Only then print/cut the remaining template pages.

USING THE TEMPLATES
REVERSED TEMPLATE — for tracing onto fusible web. Trace the solid outline onto the paper side. Rough-cut outside it, fuse to the wrong side of fabric following the product directions, then cut precisely on the solid line. Peel the paper and assemble right side up using the non-reversed placement guide. Secure every exposed edge with a small blanket stitch or narrow zigzag.

LINE LEGEND
Solid black contour = cut/trace line on cutting sheets. On placement guides, solid contours locate final visible edges; covered contours are intentionally omitted. Dashed straight lines = tile match/trim lines only. Crosshairs = registration marks, not cuts. Hidden extensions are already included. Do not add an allowance.

ASSEMBLY ORDER
Trace and cut 24 leaves total. Use eight in each leaf band. Alternate +15 and -15 degree rotations using the positioning marks in the instruction PDF.

TILED GUIDES
Print all tiles at 100%. Each tile window is 7 1/2 x 8 1/2 in with 1/2-in shared overlap. Trim the incoming tile at its left/top dashed match line, overlay it on its neighbor, align matching crosshairs and contours, and tape. Do not butt paper edges. Row 1 is above row 2; column 1 is left of column 2.

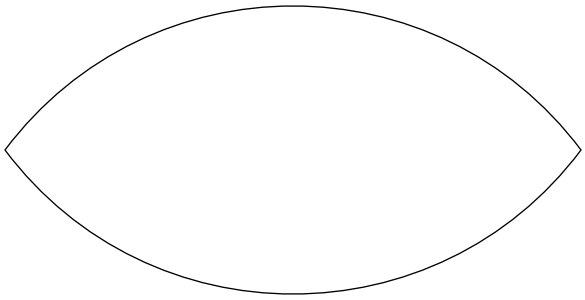
Leaf | cutting pieces

REVERSED TEMPLATE — for tracing onto fusible web. | Solid = cut/trace

Dimensions are width x height; cut on the CENTER of the thin solid outline.

A. Leaf — cut 24

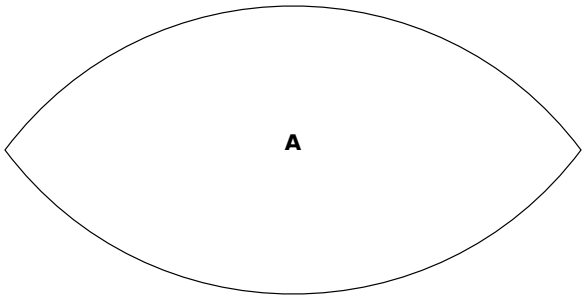
3 x 1.5 in | no added allowance



Leaf | Placement guide

FINAL, NON-REVERSED orientation | Row 1/1, column 1/1

Full size | tile window 7 1/2 x 8 1/2 in | printed overlap 1/2 in



Dashed = match/trim paper. Align like lines and crosshairs; never cut fabric there.
