

Full-size print sheets | v1.3

NORMAL placement guides + REVERSED fusible templates | Landscape | Actual Size / 100%

Print this page first. Measure BOTH the square and the line. If incorrect, fix printer scaling before printing the remaining sheets. Every following page repeats the 1-inch square. See the separate guide for assembly, fabric and cutting instructions.

1 inch x 1 inch

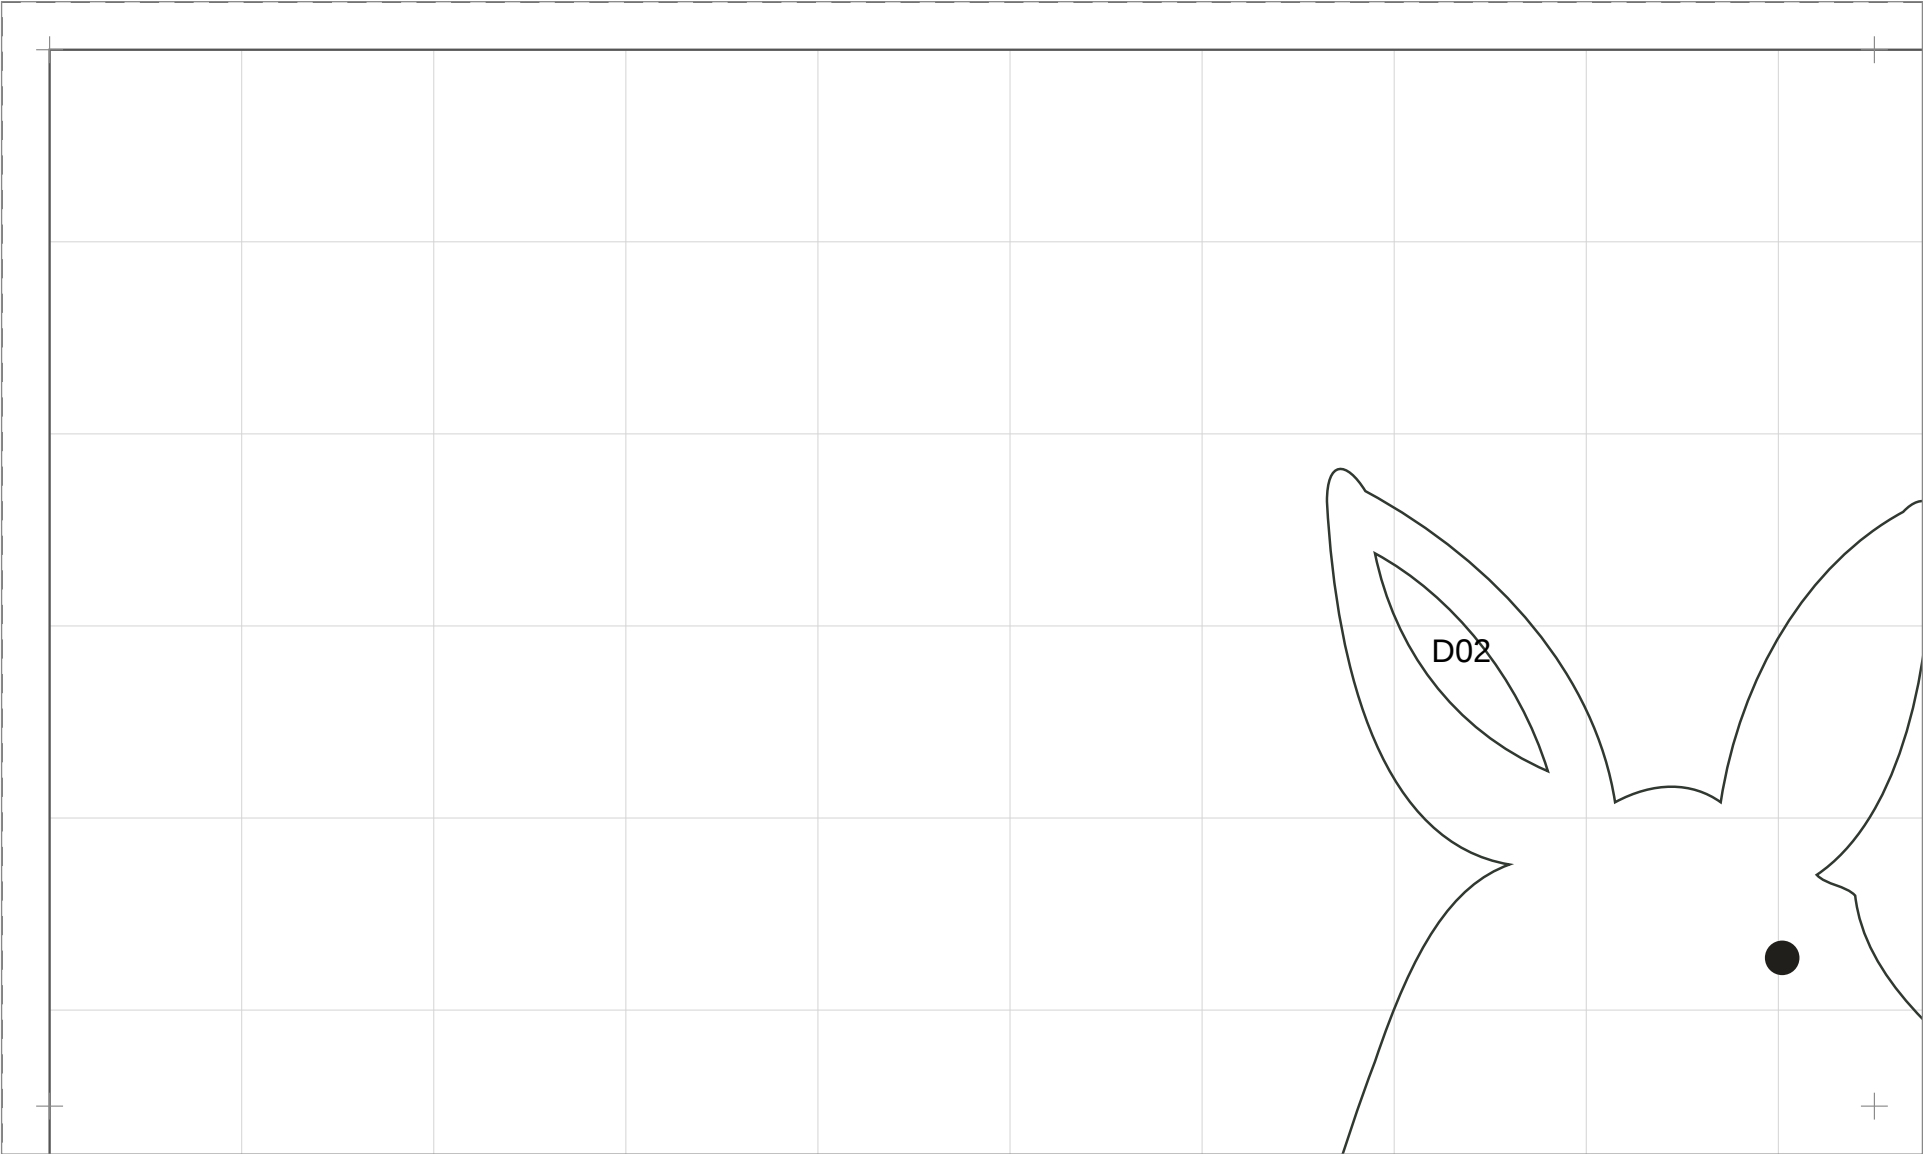

4-inch check line

File order: four pane maps (8 tiles each), then every reversed template ID. Some smaller pieces occupy a single page. Print only the IDs you need to replace. Do not reverse the printer output again.

TL NORMAL placement | v1.3

Row 1/4 - Column 1/2 | 1/2-inch overlap | 100% / Actual Size

Window = 10 x 6 inches. Square and line = 1 inch. Match overlapping artwork.
